CAREER OBJECTIVE

CS undergraduate specializing in Full Stack Development & AI Engineering. 7-month internship building production AI apps with React.js, FastAPI, LLMs, and graph databases. IEEE-published researcher with 5+ major projects. CGPA: 8.0/10.

INTERNSHIP EXPERIENCE

Spinacle Technology | Full Stack Developer Intern Nov 2025 – May 2026 / Chennai

Project 1: AI Knowledge Graph Visualization System

Developed an AI-powered radial knowledge graph app using Gemini API; modeled and stored 100+ concept relationships in Neo4j.

Engineered custom ForceGraph2D canvas rendering with sticky nodes, directional arrows, D-Pad controls, dark/light mode, and PNG/JSON export.

Stack: React.js, ForceGraph2D, D3.js, Gemini API, Neo4j, FastAPI

Project 2: AI-Powered Audio Processing Platform

Built a SaaS app that processes audio via natural language commands using Qwen LLM; reduced manual processing steps by 70%.

Implemented real-time WebSocket updates, waveform UI, Firebase analytics dashboard, and AWS deployment.

Stack: React.js, Tailwind CSS, FastAPI, FFmpeg, Qwen LLM, Firebase, AWS

EDUCATIONAL QUALIFICATION

Bachelor of Engineering – Computer Science and Engineering
Rajalakshmi Institute of Technology, Chennai Aug 2023 – May 2027
(Expected)

CGPA: 8.0 / 10.0

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Higher Secondary Certificate (HSC) – Science Stream

John Dewey Matric Hr. Sec. School, Chennai Graduated: May 2023

Aggregate: 91% | Tamil Nadu State Board Cut-off Score: 192.5 / 200

Subjects: Physics, Chemistry, Mathematics, Computer Science, English

Built strong foundation in logical reasoning and analytical problem-solving through science stream academics.

PROJECTS

Smart Secure Banking Management System | Java, Spring Boot, JWT, MySQL, React.js

Developed 10+ RESTful APIs with JWT authentication and role-based access control (RBAC).

Implemented account management, fund transfers, and transaction history with a React.js frontend.

Climate Disaster Intelligence Platform | Python, ML, Dask, OR-Tools

Built flood, heatwave, and cyclone risk prediction models with SHAP Explainable AI; optimized rescue resource allocation via OR-Tools.

AI-Powered Inclusive Smart Kiosk | React.js, FastAPI, NLP, Tailwind CSS

Designed an adaptive UI for visually and hearing-impaired users; integrated AI detection, voice navigation, and NLP assistance.

SKILLS

Languages: Java, Python, JavaScript, C, HTML, CSS

Frontend: React.js, Tailwind CSS

Backend: FastAPI, Spring Boot, REST APIs

AI/ML: Gemini API, Qwen LLM, NLP

Databases: MySQL, Neo4j, Firebase

Tools: Git, GitHub, FFmpeg, AWS, Dask

RESEARCH

Multimodal Framework for Detecting AI-Generated Fake Reviews in E-Commerce Platforms

IEEE Journal – Published 2026 | Peer-Reviewed

Designed a multimodal AI framework combining text, metadata, and behavioral signals; improved fake review detection accuracy across major e-commerce datasets.

HACKATHONS

SRM AP Hackathon: UniKiosk for visually and hearing-impaired & Deaf-Blind users.

Smart India Hackathon (SIH): Smart Focus Mode System for Android.

Cognizant Technoverse: AI-powered Kiosk System for inclusive public service delivery.

STRENGTHS

Rapid learner; proactive with emerging technologies

Delivers results both independently and in team settings

Adaptable and open to constructive feedback

CERTIFICATIONS

ML Specialization — Stanford & DeepLearning.AI (2025)

Google Cybersecurity — Coursera

AI Bootcamp — C-DAC Pune

NPTEL: Database Management Systems

Front-End Development — FreeCodeCamp (2024)
